Printer	thermal, paper width 55 mm
Locks:	1 or 2 x electronic locks with keyboard 1 x electronic lock with One Time Code
Power consumption:	50W / Max 1000W
Interface:	LAN

# 01 SUITABLE FOR

Livix 7 helps customers automate their cash processes to increase efficiency, enhance security, and relieve staff from the cash handling routine, allowing them to focus on more profitable duties. Solutions for retailer back office, bank branches, and CIT resource optimization.

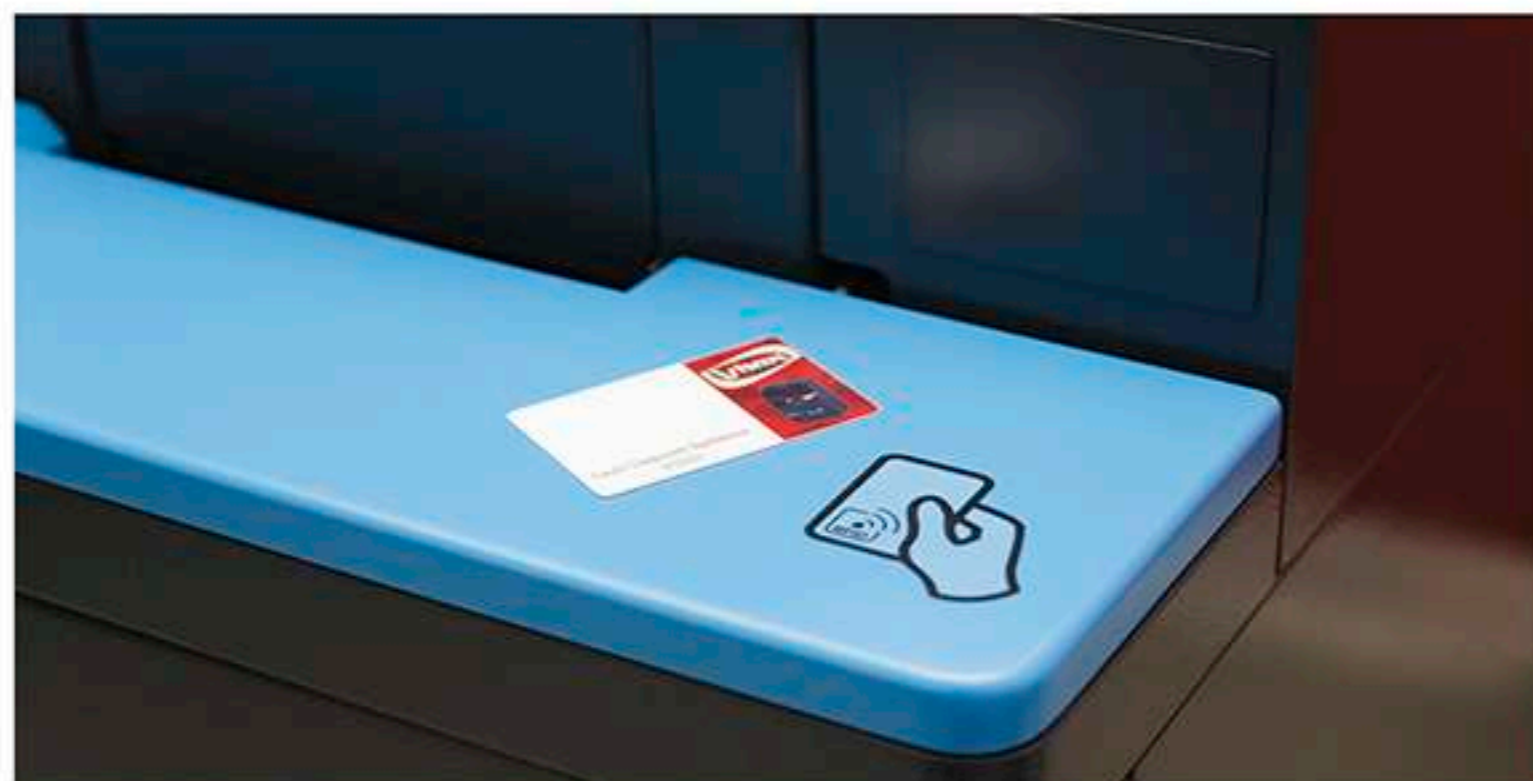

# 02 LIVIX CLOUD SOLUTION

A single unified software platform Livix Cloud Solution brings a new level of elegance and simplicity to controlling cash depositing solutions. This powerful interface makes it easy to set up, deploy and run all of Livix devices in the client's network while eliminating the need for different applications.

# 03 VARIOUS OF LIVIX

LIVIX 7 - is a compact freestanding lobby or TTW (through the wall) machine suitable for any inside location. Unique design, intelligent software, security level gave an answer to the new approach of cash depositing for both business and private individuals.

# 04 AUTHENTICATION

Authentication of the user is possible through many different approaches, by user name and password or pin, payment card, RFID card, bar code. Optional: QR code, all depending on the buyer's choices.

In short, access to a resource is protected by both authentication and authorization. If you can't prove your identity, you won't be allowed into the system. And even if you can prove your identity, if you are not authorized for that transaction, your access will be denied.

# 05 THE CONFIRMATION PROCESS

All transactions along with the status of the device can be gathered to Livix Core Solution. It is easy to trace the amount, denomination, serial number of banknotes that were deposited, and from which location. Also, monitoring of the device's current operational state or the filling of the cash bag with fill alarm notifications is provided. Everything is under control, transparent, and in order. This allows clients to prepare for the best, take preventive measures if necessary, to ensure the business always runs smoothly as it should be.

A LIGHTNING-FAST CASH  
SOLUTION THAT LEAVES  
THE COMPETITION BEHIND.
